DETAILED ACTION

Formal Matters

Claims 62-77 are pending in this application. However, *ex parte* prosecution was suspended in the Office Action dated 08/15/2000 pending the availability of a reference relevant to the examination of this application. The reference has not yet become available. However, upon further review of this application, new issues have been raised. Therefore, the suspension of this application has been lifted and the following rejections made.

The indicated allowability of claims 62-77 is withdrawn in view of the reference to Wallach et al. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Claims 62-77 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent No. 5,981,701 (Wallach et al.).

Wallach discloses purification of a tumor necrosis factor inhibitory protein, which interacts with TNF and inhibits the binding of TNF to its receptors and the cytotoxic effects of

TNF (column 3 line 65 to column 4 line 4). The protein disclosed in Wallach has a molecular weight of 40-80 kD (column 16 line 44), and comprises an amino acid sequence that is identical to the sequence of the protein claimed in the instant application (column 16, line 56), thus claims 62-66, 69, 72, 75 are anticipated. Wallach further sets forth the methods to produce the TNF inhibitor protein recombinantly from host cells (column 12, line 11-column 15, line 53), thus anticipating claims 67-68, 70-71, 73-74, 76-77.

Conclusion

No claim is allowed.
